

Successful Homebuying

Through our Homebuying service, an LSS counselor can help you set yourself up for long-term success. Before you purchase a home, we help you get your finances in order and walk you through the homebuying process.

Our counselors will provide ongoing guidance to:

- Help assess the financial situation of individuals or families
- Address barriers, such as credit, debt or student loans
- Determine if you are ready to buy and help you calculate what you can afford
- Share information on current mortgage loan programs
- Connect you to down payment and closing cost assistance programs
- Offer customized support based your specific goals and needs
